ARTGLASS

We are committed to help you please your customers with the finest framing solutions!

It is important for us to provide quality framing solutions, crystal clear glass with supreme light transmission and beneficial UV protection. We also ensure that Artglass products for framing professionals are pleasing to the eye and easy to use.

Artglass is the brand name for top quality picture framing glass manufactured by high-tech company Groglass. Our Artglass displays and preserves priceless art and cultural relics in some of the most notable museums around the world, such as the Louvre in France and the Forbidden City in China. We are now able to take that museum quality to your customers' living room. Today Artglass is available worldwide, with distribution centers in more than 45 countries.

WWW.FRAMING.EDUCATION

We appreciate the time and knowledge framers around the world have gathered and preserved throughout centuries to provide their customers with the best customized solutions for their valuables. We know that without the framers who know and love their craft, our product would not be needed.

This is why we have created an online community, Framing Academy, a place for framers to meet and discuss their craft and experiences, featuring lectures and discussions with masters of framing. You, too, are welcome to reap the benefits of this community at no cost – everything is available to you for free.
